COLLEGE ADMISSION TESTS

Middle 50 Percent, Class of 2015

(including international students)

SAT Scores:

- Critical Reading: 600–730
- Math: 630–780
- Writing: 600–740

ACT Composite:

- 25–31

AP Exams: In the spring of 2015, 115 OES students took 145 Advanced Placement Tests in 13 subjects. Ninety-three percent of scores were 3 or higher. Eighty-one percent of scores were 4 or higher.

OES offers a rigorous college preparatory curriculum with particular emphasis on writing and research. Students are taught to analyze, theorize, and solve problems. Woven through the curriculum are elements of experiential education. Seniors select from an array of semester-length courses in advanced topics in English, History, and Science.

- Average class size: 15
- Student/faculty ratio: 7:1

MISSION

Oregon Episcopal School prepares students for higher education and lifelong learning by inspiring intellectual, physical, social, emotional, artistic, and spiritual growth so that they may realize their power for good as citizens of local and world communities.

VISION

Connecting people, ideas, and cultures to advance knowledge, create solutions, and enhance meaning.
SPECIAL FEATURES OF THE CURRICULUM

ENGLISH/HISTORY
- Humanities in the freshman year combines the study of the literature and history of ancient world cultures in a 2-credit, team-taught course.
- English courses emphasize in-depth exploration through the Poetry Project (10th grade), the Literary Journalism Project (11th grade), and senior courses centered on producing original work and examining more deeply a specific field of literature.
- Students take US History I second semester of the sophomore year and then select one or two more advanced and thematically focused US History II courses as a junior and/or senior.

SCIENCE/MATH
- Students conduct extensive independent research projects in year-long science courses and conduct research or write a more traditional paper for semester courses.
- Students often advance with their research projects from the school’s regional science fair to competitions at higher levels. They have been successful in the Siemens and Stockholm Junior Water Prize Competitions, the Intel Science Talent Search (finalist 2011), and the Intel International Science and Engineering Fair (finalist 2011). The class of 2014 had a Google Science Fair finalist and a Davidson Fellow.

RELIGION & PHILOSOPHY
Courses in our Religion & Philosophy Department are rigorous and comprehensive, requiring reading, writing, and reasoning skills comparable to those in our English and history courses.

LANGUAGE
Following AP Spanish or AP French (or prior, with instructor approval), students may enroll in advanced courses: Hispanic (or French) Culture & Communication (HCC, FCC) and Hispanic (or French) Literature & Culture (HLC, FLC).

EXPERIENTIAL LEARNING
- WINTERIM: During a week in March, students participate in enrichment courses and trips.
- SERVICE LEARNING: In keeping with the school’s mission, each student must engage in two extended Service Learning Projects in the community, in addition to 60 hours of service on campus. Students are encouraged to volunteer in areas they are passionate about and to be involved in planning, carrying out, and reflecting on their service work.
- DISCOVERY: A five-day, 40-hour apprenticeship or career exploration is available to 10th, 11th, and 12th grade students.

ATHLETICS
Athletic teams compete in soccer, cross country, volleyball, basketball, lacrosse, skiing, tennis, track, golf, and fencing. Since 2005 our girls’ and boys’ teams have won 26 state championships.

VISUAL & PERFORMING ARTS
Students have a rich variety of visual and performing arts opportunities, including courses, activities, music ensembles, and play productions.
