# Use Find Care to locate a dental provider near you

Our provider directory tool can help you save money when seeking care.

Find Care, our online provider directory tool, makes it easy for you to locate an in-network provider by name, provider type, specialty, network, location, gender identity and more. Plus, finding an in-network dental provider that's right for you can also save you out-of-pocket costs.

## How to find a provider

1. Visit [deltadentalOR.com](https://deltadentalOR.com).
2. Under the "Online Tools" drop-down menu, select "Find a dentist".
3. Choose the "In Oregon or Alaska" link or "Outside of Oregon and Alaska" link depending on the state you live in.
4. Under network, choose the Delta Dental PPO or Delta Dental Premier network, which can be found on your member ID card.
5. Under location, enter in a city, state or zip code, and then search.

## Save costs when you choose in-network care

Getting quality care is easier and more affordable when you see "in-network" dental providers. These providers agree to accept your insurance at lower rates and meet quality standards. Choosing an in-network dental provider keeps your out-of-pocket costs low.

## In-and out-of-network costs

It's important to know you may pay more for services from out-of-network dental providers than from in-network providers. If you choose an out-of-network provider, your benefits only cover a percentage of the maximum plan allowance for these services. Out-of-network providers may also bill you for the difference between the maximum plan allowance and their billed charges. This is known as balance billing. In-network dental providers can't do this. Please see your plan summary or your Member Handbook to learn more about in-network and out-of-network benefits and costs.

## TELEDENTISTRY

# Dental care, from wherever you are

Teledentistry, a version of telehealth, is the use of telecommunication to have an appointment with a dental provider. It often includes two-way video, telephone, email, text or chat. We have expanded our dental coverage options so that you can receive dental care through teledentistry instead of physically going to see in-network dental providers, when needed.

### What can you use a teledentistry visit for?

Teledentistry is a convenient option for those times when you may not need to physically go into a dental office. Following are a few examples of what you can use teledentistry for.

You can use a teledentistry appointment:

- **For an initial evaluation:** If something comes up you would like to ask your dentist about, you can first have a teledentistry appointment to see if the dentist thinks you need to come into the office. The dentist may ask you to take a picture of your mouth and send it before your appointment.
- **For a routine exam when you're unable to have an in-person visit:** Your dentist can take a look inside your mouth via video and talk about anything that may

concern them. They may ask you to use a flashlight or a few other household items to help conduct the exam.

- **For a recent injury:** Teledentistry is a great after-hours option for a recent injury that's not an emergency. Examples include missing fillings, crowns and mouth ulcers.

### Scheduling a teledentistry visit

If you have a dental office where you currently receive care, we recommend contacting that office directly to schedule either in-person or virtual appointments. If you do not have an in-network dental provider, you can use our online provider search tool to locate one. Just visit [deltadentalor.com/provider/online-tools/provider-search](https://deltadentalor.com/provider/online-tools/provider-search).

Dental services provided by in-network providers via teledentistry are now covered for Delta Dental of Oregon when billed as a class 1 service.

ORAL HEALTH, TOTAL HEALTH

# Dental benefits that protect more than just your smile

If you are diabetic or pregnant in your third trimester, the Oral Health, Total Health program offers more ways to care for your teeth and mouth — and keep the rest of your body healthy, too.

## If you have diabetes

Diabetes increases the risk of cavities, periodontal (gum) disease, tooth loss, dry mouth and infection. If you have been diagnosed with this disease you are eligible for four prophylactic (preventive) cleanings or periodontal maintenance visits per year through our Oral Health, Total Health program. Protect your teeth and gums by enrolling today.

For details on the Oral Health, Total Health program, refer to the dental Member Handbook or visit Member Dashboard, your personalized member website.

## If you're pregnant

Pregnant members who have periodontal (gum) disease are more likely to have a premature and underweight baby. Bacteria can enter the bloodstream through the mouth, and the body's response to the infection can trigger early labor.

If you are expecting, you can enroll in the Oral Health, Total Health program to help prevent gum disease. If you've already had two cleanings for the year, you'll be eligible for another cleaning or checkup during your third trimester. This added preventive (prophylactic) visit is covered regardless of normal plan frequency limits. That way, you can receive a dental cleaning during the third trimester, no matter what.

## Learn more and enroll

To enroll in the Oral Health, Total Health program, fill out the form on the reverse side of this sheet or access the form online by logging in to Member Dashboard. Once you've signed in, simply click on "Oral Health, Total Health" in the myHealth tab.
